PROJECT OVERVIEW

This project includes the design and development of a custom billing system tailored for Kitchen's Pure Spicy business operations.

The system allows easy creation of professional invoices, supports both kilogram and gram-based pricing, and is fully optimized for mobile and desktop usage.

It includes a clean user interface, real-time invoice preview, print-ready A4 formatting, and a simplified workflow for daily billing activities.

The solution is built as an internal business tool to improve efficiency, accuracy, and professionalism in billing processes.
